

OOA JAIN University Microsite

Office of Academics — Platform Workflow & Feature Guide

Prepared by: Office of Academics | Jain (Deemed-to-be University)
Version 1.0 | 2026

This document provides a comprehensive guide to all features and workflows of the OOA Jain University digital platform — from login to academic calendar, UGC notices, reminders, profile management, and administrative tools.

Table of Contents

10	About JAIN University	12
11	15-Minute Site Tour & Mini Course	13
12	Admin Dashboard	14
13	Workflow Summary Diagram	15

1. Platform Overview & Architecture

The OOA Jain Microsite is a Flask-based web application powered by MongoDB Atlas, providing a centralised digital hub for the Office of Academics at Jain (Deemed-to-be University).

Feature	Description
Backend	Python Flask with MongoDB Atlas (cloud database)
Authentication	Email/password login + Google OAuth (Firebase) — Jain domain only
Email Service	SMTP-based automated reminder emails with HTML templates
Hosting	Deployable on Render / any WSGI server (port 5001 default)
Security	Session-based auth, role-based access (admin/user/leader/core)
Key Collections	users, ugc_data, events, dept_repo_docs, event_reminders, campus_gallery

2. Landing Page — Login & Access

The landing page (/) is the public-facing entry point for all users. It features a dark video background, Jain University branding, and an integrated login form.

Key Elements:

Feature	Description
Hero Section	Full-screen video background with University title and stats (28+ Departments, 25+ Core Processes)
Login Form	Email + Password login with validation. Supports Google Sign-In via Firebase for @jainuniversity.ac.in accounts only
Navigation	Links to Governance Framework and Platform Capabilities sections
Register Link	New users can create accounts, pending admin approval
Forgot Password	OTP-based password reset flow via registered email

User Flow:

1	Open site	User visits the landing page at http://[server]:5001/
2	Login	Enter Jain email + password, or click 'Sign in with Google'
3	Authentication	Server validates credentials, creates session, redirects to /home
4	New User	Register → Admin approval → Access granted

3. Home Dashboard

After login, users land on **/home** — the main dashboard. It is a rich, interactive page with multiple sections loaded asynchronously from **/api/home_data**.

Feature	Description
Today's Events Ticker	Marquee scroll bar at the top showing today's academic events. Click to view details in calendar
UGC Notices Panel	Scrolling panel with latest UGC circulars and guidelines. Click any notice to view full details + PDF/links
OOA Announcements Panel	Office of Academics internal notices and announcements with external links
Academic Calendar Slide	Interactive calendar showing upcoming events with department filter
Campus Moments	Photo gallery of recent campus events and highlights
Events Section	Categorised today's events + upcoming events with 'Set Reminder' button
Mini Course	15-minute guided tour of Jain University history, NEP 2020, and platform features
Tour Driver	Step-by-step guided product tour of the entire page (Driver.js)

4. Today's Events Ticker

The **Today's Events** ticker appears as a scrolling gold-and-navy marquee strip at the top of the Home page. It auto-loads events happening on the current date.

1	Auto-load	Page fetches <code>/api/home_data</code> on load; <code>today_events</code> filtered from academic calendar events
2	Display	Event names scroll slowly (250s animation) — readable and non-distracting
3	Click Action	Clicking a ticker event navigates to <code>/calendar?eventName=...&eventDate;=...</code> opening the event drawer
4	Empty State	If no events today, shows 'No events scheduled for today' with link to calendar

5. Academic Calendar (/calendar)

The Academic Calendar at **/calendar** is a fully interactive, self-contained page with 2800+ Jain University events pre-loaded for 2026-27.

Feature	Description
Views	Month view, Timeline view, Today view, Upcoming (60-day) view
Navigation Sidebar	Browse by Faculty → Department → Sub-department with event counts
Campus Filter	Filter events by Bengaluru Campus or Kochi Campus
Search	Real-time keyword search across all events
Event Type Filter	Filter by type: Seminar, Workshop, Placement, Academic, etc.
Event Drawer	Click any event to open a side drawer with full details: venue, coordinator, dates, department
Google Calendar	One-click 'Add to Google Calendar' from event drawer
Deep Link	Supports ?eventName=&eventDate;= URL params — clicking ticker/notices opens specific event

6. UGC & University Notices

Two scrolling notice panels on the Home dashboard serve as a live bulletin board for the academic community.

Feature	Description
UGC Notices	Displays records with category='UGC' from ugc_data collection. Includes UGC guidelines, NCrF, DIAC/DPAC, NEP 2020 handbooks
OOA Announcements	Displays records with category='University Notice'. Includes academic calendar, exam notices, ABC registration, CBCS updates
Notice Modal	Click any notice to open modal with full description, external link, and PDF attachment if available
PDF Viewer	PDFs open in an embedded iframe modal with download and open-in-new-tab options
Admin Upload	Admins can add new notices via /edit_ugc with text, categories, files, and external links

Current Notices (4 UGC + 4 University):

Feature	Description
UGC — DIAC/DPAC/BOS	Guidelines for Department Industry-Academia Cell establishment
UGC — NCrF 2023	National Credit Framework — unified credit system document
UGC — Reservation Policy	Reservation in temporary appointments regulations
UGC — NEP 2020 Handbook	Comprehensive handbook for NEP 2020 adoption
OOA — Academic Calendar	JAIN Academic Calendar 2026-27 (external PDF link)
OOA — Exam Schedule	Semester-end examination schedule and instructions
OOA — ABC Registration	Academic Bank of Credits student registration notice
OOA — CBCS Update	Choice Based Credit System implementation notice

7. Set Event Reminders

Users can set personalised email reminders for any academic calendar event directly from the Home dashboard.

1	Click Event	Click any event card in the Home dashboard events section
2	Reminder Modal	A modal opens showing event name, date, time, and venue
3	Set Date & Time	User picks reminder date, time, and optional note
4	Save Reminder	POST to /set_reminder — saves to event_reminders collection in MongoDB
5	Confirmation Email	System sends a beautiful HTML confirmation email to the user's Jain email
6	Reminder Email	At the set time, system sends reminder email via /cron/send-reminders endpoint
7	View Reminders	All set reminders visible in My Profile → Reminders tab
8	Cancel Reminder	Delete button in Profile cancels and removes the reminder

8. User Profile Management (/profile)

Each logged-in user has a dedicated Profile page at **/profile** with personal information, security settings, reminders, and documents.

Feature	Description
Profile Card	Shows name, email, role, department, location, and approval status badge
Profile Photo	Click avatar to upload a new photo (JPG/PNG/WEBP). Stored in static/uploads/
Change Password	Current password → new password → confirm. Validated server-side via /profile/change_password
My Reminders Tab	Table of all set reminders: event name, date/time, scheduled reminder time, cancel button
My Documents Tab	All documents uploaded by the user across office docs, dept repo, and public files
Document Status	Each document shows status: Approved / Pending / Uploaded with colour-coded badges

9. Department & University Repository

Feature	Description
Department Repo (/dept_repo)	Faculty upload documents visible to core team. Students see documents shared by core/leader for their department
University Repo (/university_repo)	Shows documents shared to 'All Departments' by core/leader — university-wide circulars and policies
Core Repo (/core_repo)	Leaders/core members upload documents and share to specific departments or all departments
Document Viewer (/view_doc/)	Embedded PDF viewer for approved documents
Upload Security	File type validation (PDF, DOCX, images, etc.) and file size limit (50MB max)
Expiry Dates	Documents can have end_date — automatically hidden after expiry

10. About JAIN University (/about_jain)

A dedicated public-facing page about Jain (Deemed-to-be University) with interactive sections.

Feature	Description
Navigation Bar	Links: Jain Hub About JAIN (active) Campus Tour Take 15 Mins
Hero Section	University intro with tagline and core values
History Timeline	Key milestones in Jain University's history
Accreditations	NAAC, NBA, and other accreditation highlights
Campus Gallery	Photo highlights from university campuses
Programmes	Overview of programmes offered across faculties
Today's Events	Marquee ticker with today's academic events (150s slow scroll)
User Dropdown	Logged-in users see: My Profile, department links, dashboards, Logout

11. 15-Minute Site Tour & Mini Course

The Home dashboard includes a **15-minute interactive mini course** about Jain University and how the platform works, delivered as a slide-by-slide walkthrough.

Feature	Description
Slide 1 — Welcome	Introduction to OOA platform and its purpose within Jain University
Slide 2 — About JAIN	Brief history: founded 1990, deemed status 2009, 250+ programmes
Slide 3 — NEP 2020	How JAIN implements NEP 2020: multidisciplinary, ABC, internships
Slide 4 — Platform Features	Dashboard walkthrough: calendar, notices, repository, reminders
Slide 5 — Reminders	How to set event reminders and receive email notifications
Slide 6 — Final Quiz	3-question quiz to test understanding with instant feedback

Guided Tour (Driver.js):

The 'Tour' button in the navigation launches a step-by-step overlay tour highlighting: the ticker, notice panels, calendar, events section, campus gallery, and user profile area — each with descriptive tooltips.

12. Admin Dashboard (/admin_dashboard)

Feature	Description
User Management	View all users, change roles, approve/reject accounts, reset passwords, impersonate users
Events Management	/admin/events — Add, edit, delete academic calendar events for the OOA portal
UGC Notices	/edit_ugc — Upload new UGC/University notices with files, external links, and categories
Newsletter	Create and send newsletters to all subscribed users
Campus Gallery	Add/remove campus photo moments that appear on the home page
Campus Management	Add/edit campus locations shown in the dropdown filters
Monthly Engagement	Upload and manage monthly engagement records
User Activity Logs	View detailed activity logs per user (page visits, actions)

13. Complete Workflow Summary

End-to-End User Journey:

1	Visit Landing Page	User opens the site. Sees video hero, login card, platform description.
2	Login / Register	Login with Jain email + password or Google. New users register and await admin approval.
3	Home Dashboard	Greeted by: Events ticker, UGC notices, OOA announcements, Academic Calendar, Campus Gallery.
4	Explore Calendar	Click ticker event or 'Academic Calendar' tab to view interactive 2026-27 calendar with 2800+ events.
5	Set a Reminder	Click any event card → Set Reminder modal → Pick date/time → Receive confirmation email.
6	View UGC Notices	Click any notice card → Modal with full description + external PDF link.
7	Take the Course	Scroll to 15-min course section → Learn about JAIN, NEP 2020, platform features, take quiz.
8	Manage Profile	Top-right avatar → My Profile → Upload photo, change password, view reminders & documents.
9	Upload Documents	Dept Repo or University Repo → Upload files for team or department access.
10	Receive Reminders	At the scheduled time, automated email reminder is sent to registered email address.

Technology Stack Summary:

Feature	Description
Frontend	HTML5, Vanilla CSS, JavaScript (no framework) with Driver.js for guided tours
Backend	Python 3.13 + Flask 3.x with Jinja2 templating
Database	MongoDB Atlas (cloud) — 27 collections
Auth	Flask sessions + Firebase Google OAuth
Email	SMTP (Gmail/custom) with HTML email templates
Deployment	Render.com / any WSGI host Port 5001 render.yaml provided
Repository	https://github.com/ooa-jain/ooa-microsite
